

## **MINDO**

Mindo is a beautiful valley located northwest of Quito, behind the slopes of Pichincha volcano. This tourist place has a lot of nature and adventure activities but since we know your needs, we offer a good mixture of both to give you the best experience.

After two hours of driving across the Cloud Forest, you will arrive to Mindo for visiting the Butterfly farm, the perfect place to enjoy taking pictures.

Then, the adventure continues with the Canopy, 13 zip lines of different lengths that range from 20 to 400 mts with different characteristics for all tourists from all ages. If you prefer a calm activity, we have another option for you, a trekking across the cloud forest for visiting the waterfall and a route in "Tarabita". Of course, after these exciting activities is time for lunch.

For a perfect ending, in the way back to Quito you will visit a special spot to watch hummingbirds, some tanagers and hopefully toucans.
